<b>Amount of work</b>	Self financed by Loccioni Group
<b>Implementation phase</b>	Leaf House completed, Leaf Community in continuous development
<b>Project description</b>	
<p>Technology and research return man to nature: as a leaf, in the Leaf Community we live, move, work; generating vital energy, transforming sun, water, air into growth, movement, vitality, projects.</p> <p>The Leaf Community was born to demonstrate that the third energy revolution is possible through the application of light, decentralized flexible technologies able to produce, guide and dose energy flows according to the actual need, whose results can be measured and economic costs and environmental impacts reduced.</p> <p>In the Leaf Community it is possible to live in a zero carbon house, and move with electrical or hydrogen cars, bring children to a solar school and work in eco-compatible buildings. Energy is provided by renewable energy sources, granting the highest level of comfort and modernity.</p>
